CHAPs

Customer Testimonial

"The team is responsive, and I can always reach the accounts team when needed. The quality of training is consistently high, and the trainers are highly qualified. From the CHAPs side, it has enabled us to shift our business model to better serve our residents. Although the cost is high, the return on investment is much greater. Simply put, you never let us down."

Who Should Attend This Course

The CHAPs Course is designed for care staff working in residential or nursing homes who wish to enhance their skills and knowledge.

It is particularly beneficial for:

- ✓ Care assistants looking to advance their careers to Nursing Assistant roles.
- ✓ Support workers aiming to improve their clinical competencies.
- ✓ Healthcare professionals seeking to update their skills in care practices.
- ✓ Managers wanting to upskill their teams for better care delivery.

Overall, the course is aimed at individuals dedicated to providing high-quality care and support in various healthcare settings.

CHAPs Training Success Story 1

Client

An award-winning care home group providing complex dementia care, luxury residential care, and nursing care for the elderly across a family of homes in the West Midlands.

Programme: Care Home Assistant Practitioner (CHAPs) Training

Provider: Caring for Care

Challenge

The care home wanted to help their care staff transition into Nursing Assistant roles. They needed a training programme that would equip the team with the necessary skills and confidence to succeed in their new roles.

Solution

The care home chose the CHAPs course from Caring for Care due to its comprehensive content and experienced trainers.

This in-depth 10-day programme included:

- ✓ **Comprehensive Course Content:** Key topics for Nursing Assistants, covering both clinical and management skills.
- ✓ **Expert Trainers:** Experienced instructors providing real-world healthcare insights.
- ✓ **Interactive Learning:** Sessions that encouraged active participation and discussions.
- ✓ **Practical Skills:** Hands-on skills that staff applied immediately with support from their nurse team.

Results

The CHAPs training resulted in several positive outcomes:

- ✓ **Smooth Transition:** Care staff successfully moved into Nursing Assistant roles.
- ✓ **Immediate Application:** Newly trained staff began applying their new skills right away.
- ✓ **Increased Confidence:** Staff felt more assured in handling complex healthcare tasks.
- ✓ **Higher Skill Levels:** Participants gained a stronger grasp of healthcare practices.
- ✓ **Improved Teamwork:** The course enhanced better communication and teamwork within the team.

"This is our second group of Nursing Assistants who have taken the CHAPs course with Caring for Care. One of the best parts was the well-structured curriculum, which covered everything important for anyone working as a Nursing Assistant in a care home. Each module was easy to follow and provided valuable insights that they could apply immediately in their work.

The instructors were another highlight. Their knowledge and passion for healthcare were evident in every session. They encouraged us to participate, facilitated great discussions, and offered helpful guidance throughout. Their real-world experience made the lessons easier to relate to and understand.

The course has equipped our Nursing Assistants with the knowledge and skills they need to navigate the challenges of healthcare with confidence. Thank you!"

Care Home Manager

Key Outcomes

- ✓ Quality training to support care staff transitioning into Nursing Assistant roles.
- ✓ Comprehensive course content covering essential skills.
- ✓ Knowledgeable clinical trainer with years of experience.
- ✓ An interactive, engaging learning environment.
- ✓ Immediate application of new skills in real care settings.
- ✓ Boosted confidence and ability in delivering care.

This success story shows how our CHAPs training programme has effectively prepared care staff for Nursing Assistant roles, giving them the skills to thrive in care homes.

CHAPs Training Success Story 2

Client

A 120-bed care home offering specialist residential, nursing care, and palliative care for those living with dementia, Alzheimer's, and Parkinson's.

Programme:

Care Home Assistant Practitioner (CHAPs) Training

Provider:

Caring for Care

Background

The care home was committed to enhancing the quality of care for its residents. The management recognised the need for staff to acquire additional nursing skills to provide more effective support to Registered General Nurses (RGNs).

Challenge

The care home needed a training programme that would provide care staff with the essential skills and confidence to take on greater responsibilities, ultimately improving care quality for residents.

Solution

The care home chose the CHAPs course from Caring for Care because of its comprehensive course content and trusted instructors. This 10-day programme covered both clinical and management skills, which are essential for providing quality care.

Results

After completing the CHAPs course, the care home experienced several positive outcomes:

- ✓ **Enhanced Team Performance:** Staff were better equipped to support RGNs, resulting in noticeable improvements in care quality.
- ✓ **Increased Nursing Support:** Staff were able to take on additional tasks, giving nurses more time for essential care.
- ✓ **Collective Success:** The training raised care standards, benefiting residents, families, and the wider community.
- ✓ **Improved Resident Experience:** Better support led to more personalised and effective care for residents.

"The success of our team reflects a significant achievement, not only for the individuals who participated in the CHAPs course but for the entire community. This training has allowed us to elevate our standards of care and support for residents and their families. The team is now able to provide more nursing assistance to our RGNs, which has allowed our nurses to focus on critical tasks. It's a true collective success!"

Care Home Manager

Key Outcomes

- ✓ Effective training to enhance care staff's nursing support skills.
- ✓ Comprehensive 10-day course designed for practical application in care homes.
- ✓ Skilled instructors offering real-world insights.
- ✓ A dynamic and supportive learning environment.
- ✓ Enhanced care standards that benefit residents and the wider community.

This success story shows how our CHAPs training has helped staff improve care quality, creating a more supportive setting for both residents and caregivers.

Join the many successful care home managers who have embraced CHAPs training and saved up to £10,000 on agency fees!

Our proven training reduces nurse burdens, enhances job satisfaction for care staff, and boosts confidence, leading to improved resident care and a more efficient team.
